Nutraceuticals

Lutein is a xanthophyll carotenoid naturally occurring in green leafy vegetables such as spinach, kale and egg yolks. Both lutein and its close cousin, zeaxanthin, are yellow-orange colored nutrients that are deposited in the macular portion of the retina. There they protect the eye by filtering harmful high-energy blue wavelengths of light. As the body of research grows, these nutrients are also believed to serve as powerful antioxidants supporting both brain and eye health.

Divis Nutraceuticals offers a broad portfolio of stable lutein products in powder, beadlet and liquid forms giving product development teams multiple formulation options for creating lutein fortified dietary supplements, food and beverage products.

Lutein

PRODUCT	MATRIX	APPLICATIONS
Spray Dried Powders		
Lutein 1% SD	starch	food, beverage
Beadlets		
Lutein 5% DC	gelatin	tablets, capsules
Lutein 5% DC/AF	starch	tablets, capsules, gummies, beverage and food

Lutein-Ester 10% DC/AF	starch	tablets, capsules, gummies and food
Liquid suspension		
Lutein 20% SAF	Safflower oil	Soft gel capsules, fat based food

PRODUCT FEATURES

- Excellent stability
- Natural marigold source – USP lutein source
- Kosher/Halal forms available
- Products do not contain substances of known allergenic potential
- Gluten-free
- Non-GMO
- USP (Lutein)
- E number - E161b
- Shelf life – 24 months
- Country of origin – US and India

DIVI'S SERVICE

- Analytical lab support
- Applications expertise
- Technical customer support
- Customized solutions
- Rapid response customer service
- Website documentation available
- Regulatory support

ABOUT DIVIS

As a multinational company, Divis Laboratories, has been serving the global pharmaceutical, nutraceutical and food markets for over 25 years. Our manufacturing facilities, located in India, are certified under ISO 9001, ISO 14001, OHSAS 18001, and FSSC 22000. The plants operate under HACCP guidelines with additional FDA inspection. As part of Divis' dedication to quality and innovation, a team of over 200 scientists make up our departments of Quality, Research & Development. This team provides support and collaboration with external partners, suppliers and customers.
